

Amendment to the Claims:

The listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1. (Original) A multimedia content delivery system, comprising:

a content provider having a plurality of multimedia files therein;

a first integrated circuit card interface for receipt of a host integrated circuit card containing first authorization information;

a second integrated circuit card interface for receipt of a user integrated circuit card containing second authorization information;

an input device for selecting a multimedia file from the plurality of multimedia files;

an output device for providing the content of a selected multimedia file;

a control unit responsive to insertion into said second integrated circuit card interface of a user interface card containing second authorization information compatible with first authorization information contained in a host integrated circuit card inserted in said first integrated circuit card interface, for actuating said output device to provide the content of a multimedia file selected by said input device.

2. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a multimedia terminal having said content provider, said first integrated circuit card interface, and said control unit therein enclosed therein.

3. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises an audio output device.

4. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises a video output device.

5. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises a communication link permitting downloading of the selected multimedia file in electronic form.

6. (Original) A multimedia content delivery system, as claimed in claim 5, wherein said communication link is a wireless communication link.

7. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider, said input device, said output device, and said control unit comprise a laptop computer.

8. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider, said input device, said output device, and said control unit comprise a wireless personal terminal.

9. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider comprises a server.

10. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider further comprises a mainframe computer coupled to said server.

11. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a server connected to said content provider.

12. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a mainframe computer connected to said server.

13. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said multimedia files comprise audio media.

14. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said multimedia files comprise video media.

15. (Original) A multimedia content delivery system, as claimed in claim 14, wherein said video media comprises text.

16. (Original) A multimedia content delivery system, as claimed in claim 15, wherein said text comprises electronic books.

17. (Original) A multimedia content delivery system, as claimed in claim 15, wherein said text comprises newspapers.

18. (Original) A multimedia content delivery system, as claimed in claim 14, wherein said video media comprises games.

19. (Original) A process for providing multimedia content, comprising the steps of:

(a) storing a multimedia file, having multimedia content, in a storage unit;

(b) associating first authorization information with the multimedia file;

al (c) receiving a user integrated circuit card containing second authorization information compatible with the first authorization information;

(d) in response to step (c), providing the content of the multimedia file to an output device.

20. (Original) A process as claimed in claim 19, wherein step (b) comprises receiving a host integrated circuit card containing the first authorization information.

21. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file to an audio output device.

22. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file to a video output device.

23. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file in electronic form to an output link.

24. (Original) A process for providing multimedia content, comprising the steps of:

(a) storing a plurality of multimedia files, each having multimedia content, in a storage unit;

(b) associating first authorization information with each of the multimedia files;

(c) receiving a user integrated circuit card containing second authorization information compatible with the first authorization information of at least one of the multimedia files;

(d) in response to step (c), providing the content of the at least one multimedia file to an output device.

25. (Original) A process as claimed in claim 24, wherein step (b) comprises receiving a host integrated circuit card containing the first authorization information.

26. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file to an audio output device.

27. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file to a video output device.

28. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file in electronic form to an output link.

29-48. Withdrawn (non-elected claims)
